CAREER OBJECTIVE

Aspiring Full Stack Developer with a strong foundation in the MERN stack and Next.js, driven by a "Learning by Building" philosophy. My goal is to leverage my technical proficiency in modern JavaScript frameworks to build scalable, user-centric web applications. I am highly ambitious about contributing to a forward-thinking development team while continuously refining my capabilities in senior engineering practices.

SKILLS

Technical Skills:	React.js, Next.js (15+), JavaScript (ES6+), Node.js, Express.js, MongoDB, RESTful APIs, Mongoose, Better Auth, JWT/JWKS, Tailwind CSS, React Router, HTML5, CSS3
Tools & Platforms:	Zustand, Nodemailer, Git, GitHub, Postman, Vercel, Netlify, VS Code
Interpersonal Skills:	Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Self-Motivation

PROJECTS

Rescume – Full Stack Pet Adoption Platform

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

A full-stack pet adoption platform built to connect rescue animals with potential adopters through an intuitive interface.

- **Secure Workflow:** Implemented robust authentication and authorization using Better Auth paired with secure JWT/JWKS token management.
- **Dynamic Pet Profiles:** Enabled authorized users to effortlessly create, update, and post detailed listings for adoption-ready pets.
- **Seamless Adoption Requests:** Engineered a streamlined interactive form system for processing and reviewing user adoption applications.
- **Optimized Architecture:** Leveraged Next.js 15 Server Components to deliver highly performant, server-side data fetching and rendering.

Asta-Bazar – E-commerce Engine

[Live Link](#)

A production-ready e-commerce application tailored for fast browsing, smooth shopping workflows, and administrative control.

- **Global State Management:** Integrated Zustand to handle a persistent shopping cart with instant state updates across the app.
- **Automated Notifications:** Implemented an automated system using Nodemailer to dispatch instantaneous order confirmations to admins.
- **Responsive Interface:** Designed a clean, mobile-first two-column product layout optimized using Tailwind CSS and Daisy UI elements.
- **Robust Data Handling:** Built structured CRUD operations utilizing Mongoose models to cleanly manage product catalogs and inventories.

EDUCATION & COURSES

Programming Hero — Full Stack Web Development

2026

Batch 13 Certification training focusing heavily on building end-to-end web applications and modern JavaScript ecosystems.

LANGUAGES

Bengali: Native or Bilingual Proficiency **English:** Professional Working Proficiency / Intermediate
